I'm Out Of Bondage in "C"

```
 C                                    G
I'm out of bondage and into liberty,
                                                C
My heart is singing since Jesus set me free
              C7                  F
The Holy Spirit, He daily strengthens me
               C                    G    C
I'm out of bondage and into liberty
```
