

But For Grace

Once all was lost, we were alone there was no one to save us

Then from your throne mercy was shown, Jesus your son forgave us

1. Lest we forget and lose our memory,

We will always give thanks for the grace that sets us free

But for Grace where would we be,

Helpless and hopeless left without your mercy

But for love we'd be lost in misery, but for your grace oh God

But for your grace oh God

2. Loving and true no one but you came to rescue us from blindness

Oh faithful friend, we can depend now till the end on your kindness

Stronger than we can imagine...grace that is greater than our sin

Washed by your blood we're forgiven

And we give you thanks...again and again...

But for Grace where would we be

Helpless and hopeless left without your mercy

But for love we'd be lost in misery, but for your grace oh God

But for your grace oh God
